**Re; Carlsbad Energy Center Project (07-AFC-6)  
Intervenor Power of Vision's Status Report (June 2009)**

Dear Commissioners:

Power of Vision (POV) hereby submits this Status Report in compliance with the Committee's request that all parties submit such reports every six weeks.

## **Current Issues and Activities**

On May 7, 2009 POV forwarded to CEC Staff copies of almost 1500 signatures of San Diego County residents who oppose the siting of Carlsbad Energy Center Project (CECP) at the presently proposed coastal location. More and more citizens are signing the petition against the project as they learn that the CECP is an incremental installation, and not a replacement of the existing Encina Power Plant building and 400 foot smoke stack. Citizens have also expressed concern about there being no resolution between the Applicant and Caltrans regarding visual impacts that the new plant will have when Caltrans widens highway I-5.

On June 1, 2007 POV forwarded to CEC Staff a data request asking the Applicant to make available for review the original documents wherein the Applicant recorded hourly data on run time, NOx emissions, fuel consumed and kilowatts generated for Encina units 1 – 5 for the years 2002 –2008. We have made this request because of anomalies uncovered in the data previously provided by the Applicant to the CEC and the San Diego Air Pollution Control District (SDAPCD).

Sincerely yours,

Julie Baker  
Arnold Roe
